# OUR MARKETS

# RESULT-ORIENTED SKINCARE

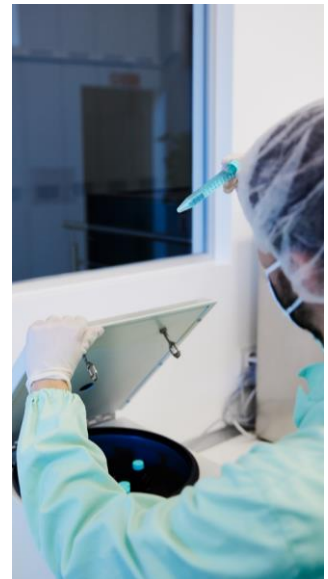

When a doctor, an aesthetic clinic, a beauty institute or a beauty professional contacts our cool dynamic team as a potential partner for the development of customized products or medical devices, we first listen carefully the needs and evaluate the best solution to let their business grow.

Thanks to our proven experience in beauty and aesthetic industry, we support clients' growth delivering advanced customized beauty solutions based on innovation, know-how, practical experience and enthusiasm.

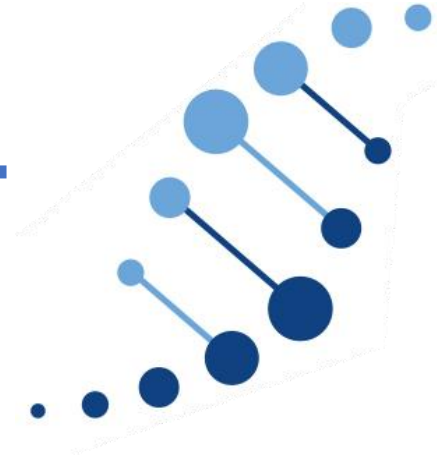

Our revolutionary products utilize latest technologies and ingredients to achieve safe, effective and noticeable results. With more than 50 scientifically-developed skincare products – ranging from basic care to the latest, high-tech, dermatological formulas – we offer a complete line of skincare designed to address every skin type and concern.

# CUSTOMIZE YOUR PRIVATE LABEL COSMETIC AND SKIN CARE

---

Our laboratories have specialized in the study and realization of formulations customized for third parties.

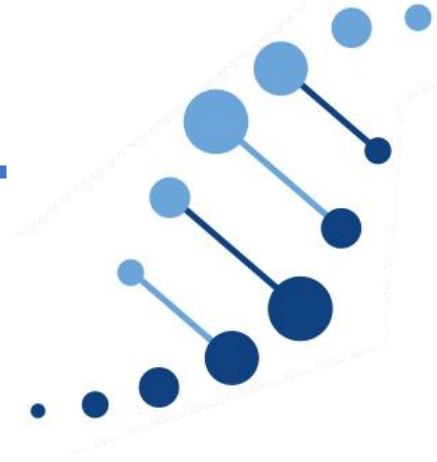

Our priority is to maintain high quality level of our products, so we continuously research and analyze new innovative raw materials. Our experts selected new advanced ingredients and study different formulations to obtain the best product for the best results.

For our formulations we use innovative and specific ingredients and we select advanced compounds that ensure the best stability and bioavailability, thanks to new technological solutions to achieve the highest performance.

---

# CUSTOMIZE YOUR PRIVATE LABEL COSMETIC AND SKIN CARE

---

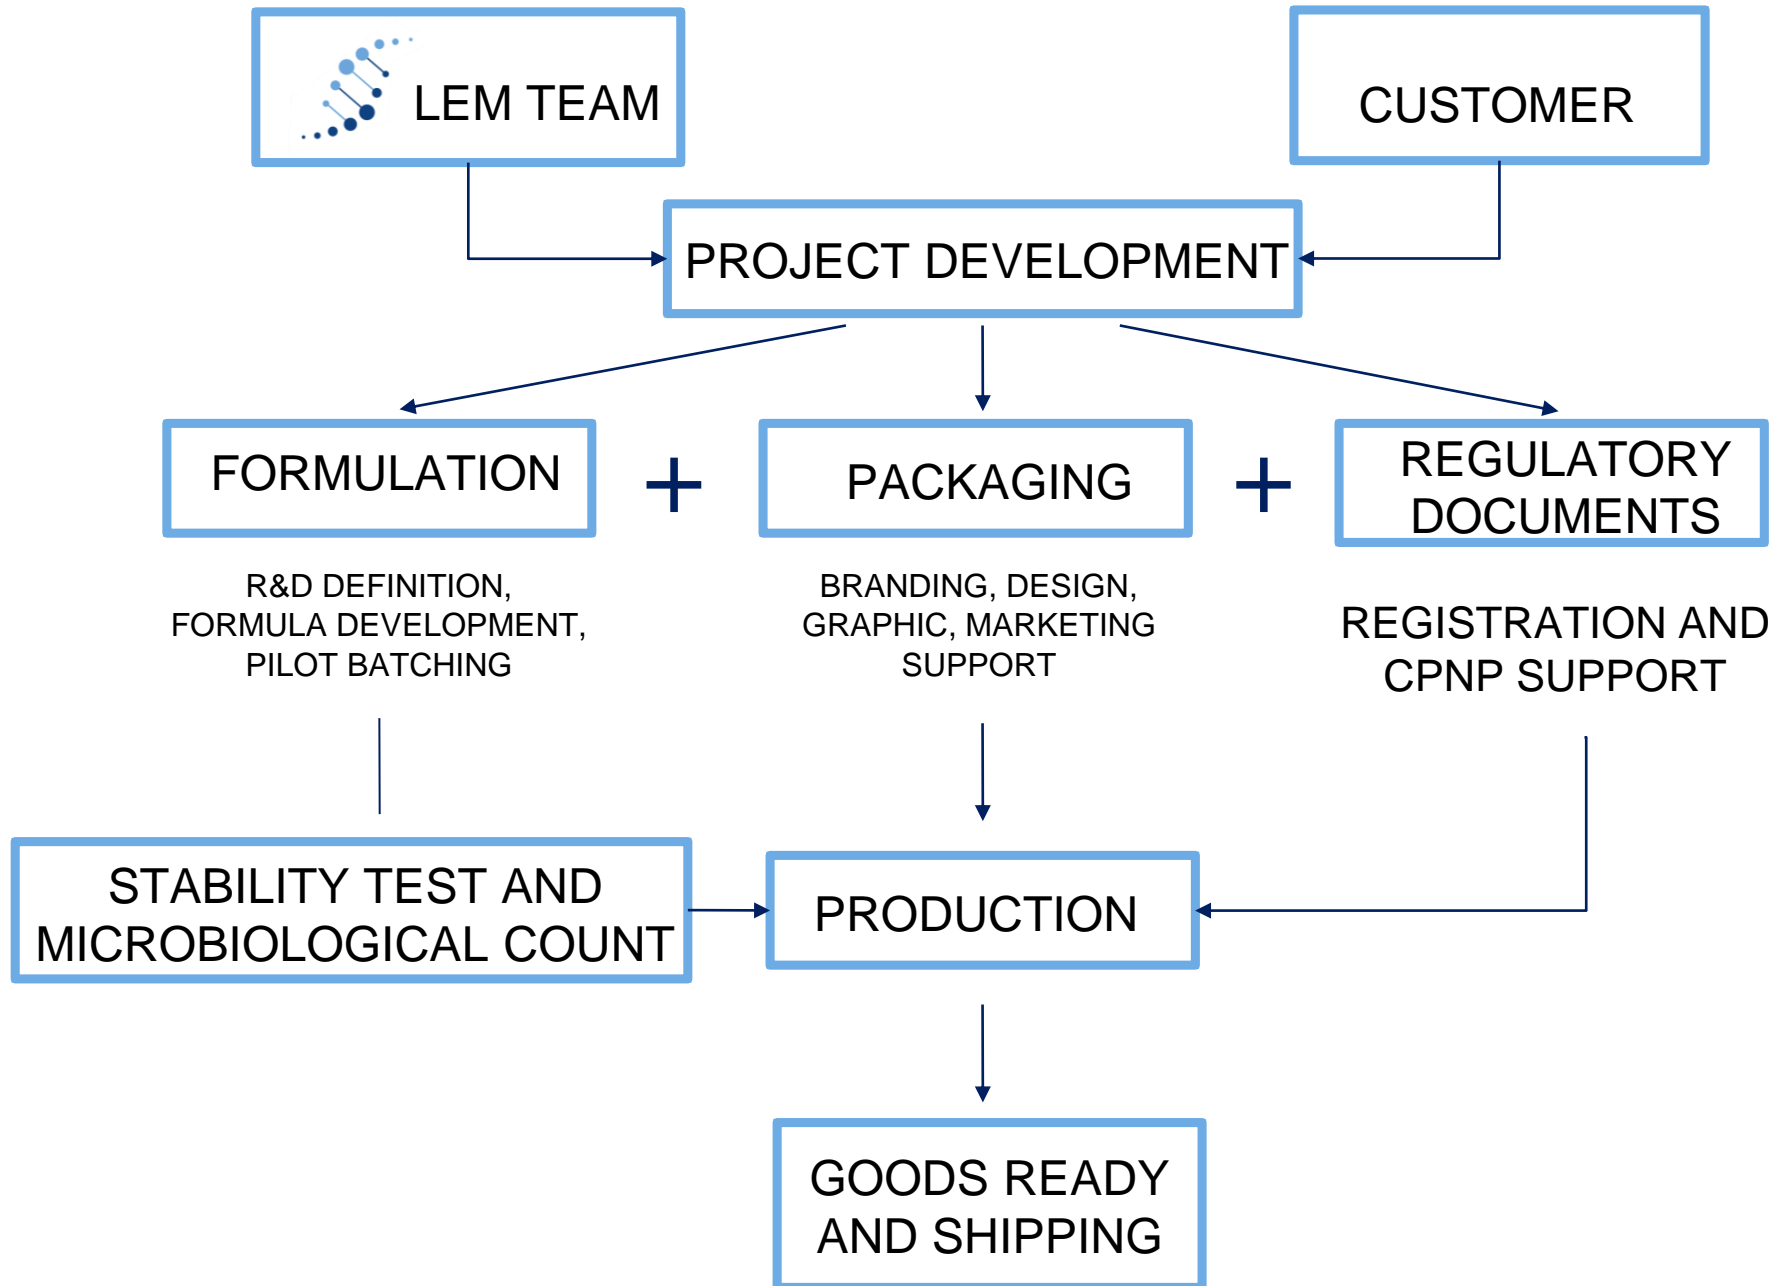

After you choose your product, the second step is the packaging. We offer a wide range of quality packaging for our clients, to satisfy different needs and tastes. We provide different typologies of containers and closures – bottles, jars, pumps, airless, spray, dropper

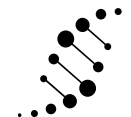

You can design your own brand or we can help you with our graphic support for creating a brand-new label.

Our professional team of graphic designers can assist you in order to develop a new layout and design for creating customized labels and boxes.

You can also choose the type of printing on the container among adhesive label, silk-screen printing or tampography.
