N-FINDERS

- PDO is a 100% biodegradable material which can be completely absorbed by the body and excreted through urine entirely in 6 months.
- PDO is safe treatment without acute inflammation reaction.
- Used in surgical sutures and orthopedic for a long period.

- PDO is a 100% biodegradable material which can be completely absorbed by the body and excreted through urine entirely in 6 months.
- PDO is safe treatment without acute inflammation reaction.
- Used in surgical sutures and orthopedic for a long period.

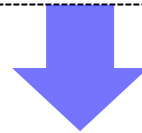

Minimally Invasive Lifting with Threads

- PDO thread lifting treatment tightens sagging skin tissue instantly
- The threads are inserted by needles, anchored, and pulled to lift the skin upwards and tightening the skin of the face
- After insertion, the thread stimulates the neocollagenesis and neovascularization
- **Procedure takes only 15 - 30 minutes**

Main Effects

- Collagen stimulation -> Neocollagenesis
- Neovascularization
- Increase of growth factors synthesis
- Cellulite decrease

Skin elasticity

Skin Tightening, by contracting fat tissue

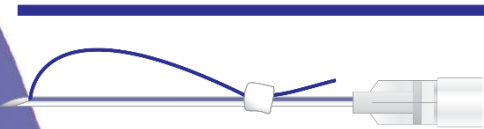

Clinical Importance

- Just local anesthesia: you can return to normal life immediately after the procedure.
- Minimal downtime
- No incisions or stitches are required
- No scars
- No secondary effects
- Suitable for everyone and applicable to the whole body

PDO THREADS

○ MONO THREAD

Needle(mm)		Thread(mm)	
Gauge	Length	USP	Length
29G	30	6-0	30
29G	40	6-0	50
27G	50	5-0	70
27G	60	5-0	90

Presentation : 100 threads per box (10 pouches/5 units in 2 sachets)

RE: DERMA SPRING / DERMA SPRING EYE

- Increase neo collagenesis and cytokines production
- Volumizing
- Special design for volume(spring) / for eye area treatment(EYE)

Derma-Spring

Needle (mm)		Thread(mm)	
Gauge	Length	USP	Length
27G	40	6-0	100

For face and neck, or any area of the body

Derma-Spring EYE

Blunt cannula(mm)		Thread(mm)	
Gauge	Length	USP	Length
29G	40	6-0	50
27G	50	5-0	70

For Periorbital region / Descend of the check fat pad /Laxity of SMAS or deepening of the nasolabial fold

N-Scaffold

- Collagen forms an artificial scaffold complex which increases surface area dramatically.
- Special for deep lines as the Neck line, Nasolabial fold, Frown line, necklace lines, Mid-cheek area, and Indian line

N-Scaffold

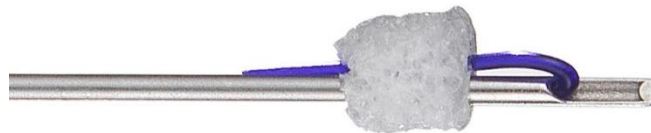

Half cut Cannula (mm)		Thread(mm)	
Gauge	Length	USP	Length
21G	60	6-0	60
21G	60	6-0	90
21G	100	6-0	180
25G (Needle)	50	6-0	80

30 threads per box. (6 pouches with 5 units in individual sachet)

Cog threads : N-Cog Multi

- RE: N-COG MULTI is a multiple bidirectional barbed PDO, specially designed to prevent skin dimpling, protrusion and breakage of the thread once it is inserted inside the skin tissue.

N-Cog Multi

Needle (mm)		Thread(mm)	
Gauge	Length	USP	Length
23G	60	3-0	100
23G	90	3-0	130
Half-Cut cannula			
21G	60	2-0	100
21G	100	2-0	150

30 threads per box. (6 pouches with 5 units in individual sachet)

Cog threads : N-Cog Spiral (360)

- RE: N-COG SPIRAL MULTI is a multiple bidirectional barbed PDO with 360° spiculated PDO thread: Powerful and painless
- Ideal for treatment of the cheeks and neck, asymmetries, and different regions of the body which a lot of weight must be supported

N-Cog Multi / Spiral

Needle(mm)		Thread(mm)	
Gauge	Length	USP	Length
23G	60	3-0	100
23G	90	3-0	130
Half-Cut Cannula			
21G	60	2-0	100
21G	100	2-0	150

30 threads per box. (6 pouches with 5 units in individual sachet)

Cog threads : N-Cog Royal

- N-COG Royal is designed with a unique and stronger pattern added onto the basic of N-Cog Spiral.
- Specially designed for severe sagging regions.

N-Cog Royal

N-COG
Royal

Half-Cut Cannula (mm)		Thread(mm)	
Gauge	Length	USP	Length
21G	60	2-0	220
21G	100	2-0	280

30 threads per box. (6 pouches with 5 units in individual sachet)

Cog threads : N-Cog Y-KO

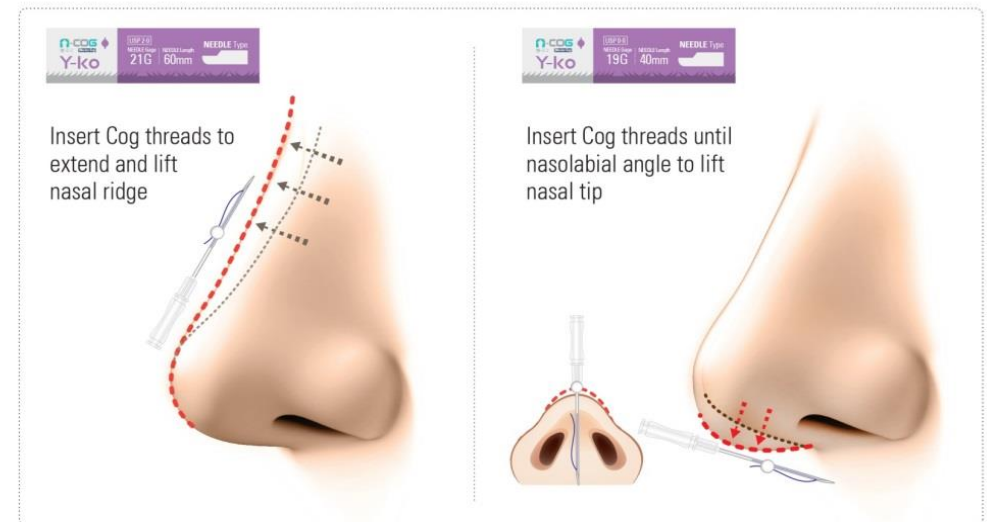

- Stimulates patient's intrinsic healing process in order to re-shape the nose.
- Re-Shape your nose in less than 15 minutes and without surgery. Lift the tip of the nose, alignment of the nasal dorsum, and reduction of the nasal wings

N-Cog Y-KO

Half-Cut cannula (m m)		Thread(mm)	
Gauge	Length	USP	Length
19G	40	0	40
21G	60	2-0	90

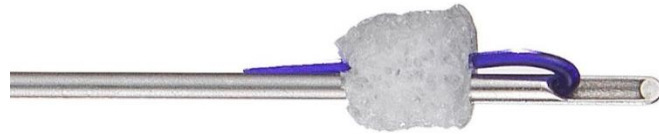

30 threads per box. (6 pouches with 5 units in individual sachet)

Cog threads : N-Cog Flip

- RE: N-COG FLIP cogged thread is specially designed to enhance the force of lifting and make a simple anchoring.
- Ideal for Forehead, Malar Augmentation, Cheeks, Nasolabial folds, Jowl, and Double chin

N-Cog Flip

FLiP
N-COG 엔-플립

Half-Cut cannula (mm)		Thread(mm)	
Gauge	Length	USP	Length
23G	60	3-0	110
21G	60	2-0	110
21G	100	2-0	160

30 threads per box. (6 pouches with 5 units in individual sachet)

Micro Punching Thread : N-Fix

- RE: N-FIX, a thicker thread with inner cogs, designed with sculpting technology inside a common cannula to produce a great tissue grasping power for a stronger lifting effect
- Ideal for Strong Full face lifting and rejuvenation, cheeks and Jawlines, Body treatment, and asymmetries.

N-Fix

N-Fix 엔-픽스

Half-Cut cannula (mm)		Thread(mm)	
Gauge	Length	USP	Length
23G	60	2-0	100
21G	100	0	150
19G	100	3	150

60 threads per box. (10 pouches with 6 units in individual sachet)

Research

N-Finders is aiming for an 'EVIDENCE BASED MEDICINE'. We are the only thread manufacturing company which has many clinical data and scientific papers (SCI reports) published on international journals.

N-Finders has already published more than 10 scientific research reports with our key doctors.

Related products

N-Finders has published several **PDO threads training books**, written by professors of human anatomy, plastic surgeons and dermatologist

A one of a kind complete and total guide series for perfect PDO threads lifting

Remarks

- *High quality PDO*
- *100% biocompatible material*
- *Fast and painless procedures*
- *No General anesthetic needed*
- *Minimal invasive procedure with the most natural results*

Thank you
