**N-FINDERS**

**MORE  
THAN  
JUST  
PRODUCT**

**N-Finders** has developed revolutionary products through scientific research, with the goal of becoming a world-class manufacturer for regenerative medicine market.

## INNOVATIVE RESEARCH

[www.nfinders.com](http://www.nfinders.com)

# N-FINDERS

“REGENERATIVE MEDICINE CORPORATION”

**N-Finders'** core business has been in the aesthetic regenerative medicine market since 2012. With a commitment to evidence-based treatments, N-Finders has taken irreplaceable part in regeneration field and developed “Regenerative medicine brand-RE”.

**N-Finders** creates value through the development of new products aimed at anti-aging, total rejuvenation and pain treatment applications. To date, N-Finders has launched its own series of premium PDO threads (N-COG, N-Scaffold, N-FIX, N-Flip), and other innovative products to the markets across the globe.

**N-Finders** owns a R&D center leading the company's efforts to develop better aesthetic medical products based on the principles of regenerative medicine. Through it's commitment to innovation, N-Finders is consistently proving itself as a market leader both within Korea, as well as globally.

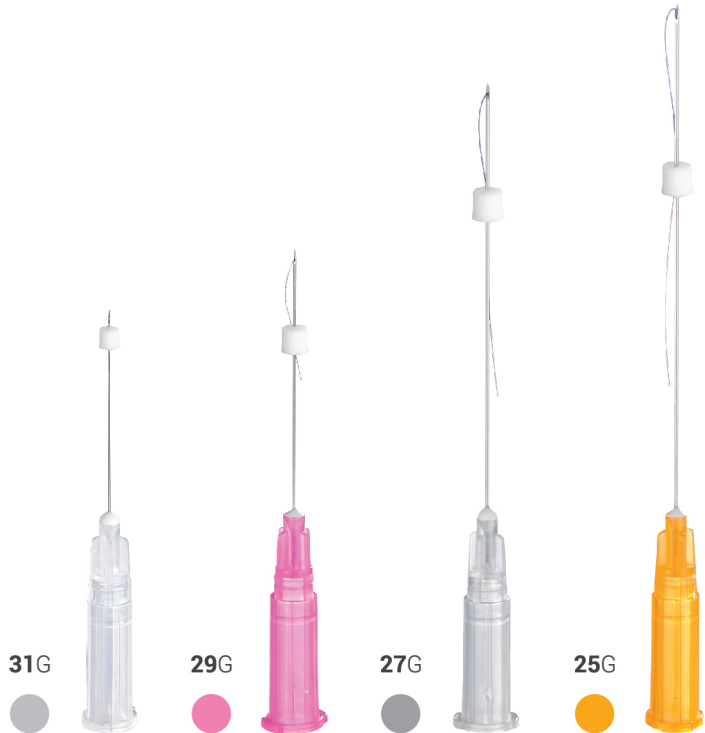

# RE:

**MONO** Plain monofilament for skin tightening and general function improvement.
