SIMPLE

FOR THE OPERATOR
the **patented guide**
simplifies
the procedure

**FOR THE
TREATMENT FACILITY**
ART is an **outpatient**
treatment

**FROM A LEGAL
POINT OF VIEW**
it is a homologous
autologous graft
of **adipose tissue**

Bring the **outpatient Autologous Regenerative Therapy (ART) into your practice!**

In addition to the anti-aging and restorative effects through a boost at the cellular level with adipose-derived stem cells, this extraordinary new method integrates perfectly with the other techniques that the Aesthetic Doctors can make available to their patients, to enhance and prolong their aesthetic and anti-aging effects.

The complementarity of regeneration with the treatments already in use makes ART an essential ally against the effects of aging, for a **real anti-aging therapy** that acts from the inside by regenerating the tissues.

*The whole is greater than the sum of its parts (**Aristotele**)*
